

## Love to Love Germany: LOVE IS ACTION

*Donation & Promotion - a contribution to being happy*

**Live To Love Germany is part of a worldwide active humanitarian network. Its goal is to be helpful on a level which is socially advanced, environmentally compatible and culturally aware. With the creation of the foundation in Hamburg another milestone was created towards its charitable commitment. The initiative is looking for benefactors and supporting members who would like to be involved in ecological and social processes.**

"Love is action" - is the core philosophy and offers an approach to actively solve the problems of modern life. The main task of Live To Love Germany, under the chairmanship of Gianna Wabner, is the organization of local and international projects which are based on the five pillars: education, environmental and animal protection, worldwide equality of women, medical care and crisis support in disaster areas and the preservation of cultural heritage.

***"If a deep understanding of compassion is anchored within your system, then an effort automatically arises within you, which is a drive geared towards others, to serve your country and nature. This action is love."***

Gyalwang Drukpa

Bringing warm clothes and food to the freezing homeless, protecting animals by

supporting animal sanctuaries, contributing towards environmental protection such as tree planting campaigns in cooperation with NABU (Nature & biodiversity conservation union Germany) and collecting plastic rubbish are just some of the examples of the wide spectrum of the projects which are coordinated by vice chairman Agnes Forsthuber.

On an international level Live to Love Germany supports tree planting campaigns, eye camps in Asia where patients with cataract are operated upon by doctors on a voluntary basis through donations. The education of children at the Druk White Lotus School in Ladakh is enabled and supported through sponsorships.

The religiously independent and liberally minded Live To Love Initiative was founded in 2007 by the Gyalwang Drukpa. The spiritual head of the 1000 years old Tibetan Buddhist Drukpa Order was awarded with the Millennium Goals Award by the United Nations for his dedication. The Gyalwang Drukpa is also the chairman of the renowned United Nations environmental program, Earth Award Committee.

***"To be happy, we especially need to makes others happy. We need to do something to help others out there,***

***other beings as well as nature so it is healthy and in balance. In return or as a reward you'll be happy too. I always stress the point that the source of our own happiness is achieved when I can give something to others."***

Gyalwang Drukpa.

If you'd like to take part, we welcome you, as a supporting member or benefactor. Participate financially or with technical knowhow in social and ecological processes and experience the delight, when your help makes others happy. The long term aim is to create a medical academy for holistic alternative healing in premises owned by the foundation with rooms for philosophical and scientific talks, art exhibitions and other events in accordance with the ethos of Live To Love.

***"Living to love is a contemporary lifestyle. As a donor to Live To Love Germany you are adding a spiritual perspective to your financial contribution. You become a part of a humanitarian organization which doesn't just say good things, but does them"***

Gianna Wabner, President of  
Live To Love Germany
